

INNOVATIVE WALL COVERINGS FOR DESIGN CHALLENGES

Our fine-quality, classic, contemporary, and state of art polyurethane-based coverings for wall and all surfaces are a logical, trouble-free way to met challenges of interior and exteriors requiring smart design solutions.

As Australia's leading supplier of visual communication products, we can help you get your message across and sell your information the way you want.

INNOVATIVE SURFACES

Panespol® wall coverings provide stunningly realistic imitations of classic brickwork, concrete finishes, stone, slate and wood. A great way to create eye-catching feature walls for designers, interior decorators and architects, this range of three-dimensional wall panelling is now available to everyone.

Quick, both quiet and easy to install, safe to use and environmentally friendly, the extremely light panels enable the creation of stylish, unique interior and exterior designs with impact. They also remove any need for technical building work.

Features include:

- Patented polyurethane composition
- Fire retardant polymer facing
- Full depth panels for increased 3D feel
- Thermally insulating against damp
- Can be used in interiors and on exteriors
- Acoustic reducing properties
- Light weight & very hard wearing
- Environment-friendly product

Installation is fast and easy

Panels can be cut using standard woodworking tools. Simply apply adhesive to the back, the screw or nail each panel to the wall in the desired location. Fill all the gaps with filler, paint with retouching pigment and it's finished.

Australian Fire Certified

Our polyurethane panel samples covered with fire-retardant polymer have been tested in accordance with Australian Standard 1530.3-199 and AS/NZ 3837-1998 to assess fire hazard. Please refer to our website to view the certificates.

WARM BRICK TEXTURES

Easily create the rustic, industrial charm of exposed brickwork in retail outlets, offices and homes Panespol® brick panels are just 10% of the weight of real brick. They're also quick and easy to install.

Available in a range of colours to match natural tones, simply select the style of brick that compliments your aesthetic.

Great news if you want to add a pop of colour to your brickwork; our panels are also paintable, allowing you to make a truly unique impact with your designs.

SLATE INSPIRED ELEGANCE

Panespol® slate panels allow the integration of natural characteristics to compliment and enhance decorative styles.

Imitation slate panelling weighs just a fraction of real stone and offers a great, cost-effective alternative.

With a choice of warm and cool natural colours our slate panel range has something for everyone, and for application both inside and out.
